Every Child Can! © is an introduction to Dr. Suzuki’s philosophy and its application to Suzuki education. For parents, teachers, perspective teachers and others, this course provides an inspiring, in-depth look at the Suzuki approach to teaching and learning. For teachers ECC serves as the required first course in the Suzuki Association of the Americas' Teacher Development Program. In addition to exploring the elements of the Suzuki approach and its far-reaching goals, it includes an introduction to learning styles, history of the development of Suzuki education, the role of parents, the importance of Suzuki pedagogical training, and an overview of the SAA's role in supporting teachers and parents. ECC includes video materials and SAA-developed courseware and provides each participant with useful reference materials for later study. It is required for all new Suzuki teachers, but open to non-teachers, prospective teachers, parents, administrators, and all others interested in learning about Suzuki approach to education. It is not instrument-specific. Experienced Suzuki teachers are also encouraged to participate for renewed inspiration or review.
